PROLINE S1 CABINET

INDUSTRY STANDARDS

UL 2416 Listed File Number E230874
cUL Listed per CSA 22.2 60950-1-07
UL 2416 Bonding and Grounding (with use of PGK grounding Kit)

EIA 310-D (RU – Rack Unit spacing, marking, and positioning)
IEC 60529, IP20
Perforated doors meet or exceed manufactures open space/air flow ventilation requirements

APPLICATION

ProLine S1 Cabinets are an economical solution for contractors, small computer rooms, schools, retail outlets, or smaller networks that require a general purpose cabinet to house servers, switches, cables and other communication equipment. Multiple sizes, configurations, and accessories give ProLine S1 Cabinets wide application flexibility.

FEATURES

- All doors have tool-less hinges that allow the doors to easily be removed or reversed in the field
- All doors have ergonomic opening, keylocking handles
- Easy-to-remove side panels with optional keylocking latch provisions
- Front and rear doors are fully perforated to allow for maximum air flow
- Top accepts additional cooling fans (2 X 6-in. fans) with integral finger guard prefabricated in place
- Top has sliding gland plate to accommodate large cable egress capacity
- Combination foot and adjustable leveler in each cabinet corner
- Two sets of L-Shaped, heavy gauge Rack Angles with rack unit markings are furnished – tapped holes (10-32) on one side and square holes (.375 in. x .375 in.) on the other side
- Rack angles are fully adjustable front to rear and easily converted to either the tapped or square hole configuration; use square holes for server cabinets and tapped holes for communication cabinets
- Rack angles come centered in all cabinet for 19-in. rack spacing; in 700mm and 800m wide cabinets they can be adjusted to 23-in. rack spacing, and either centered or biased to one side for use with one or two vertical cable manager accessories (23-in. can only be biased in 800mm wide cabinets)
- Open base for easy cable entrance

SPECIFICATIONS

- 12 gauge cold rolled multi-formed welded steel frame construction
- Doors made of 16 gauge steel with forms and door stiffener
- Top is made of 16 gauge steel
- Perforated material is made of steel with maximum open space
- Side panels made of 16 gauge steel with formed sides
- Rack angles made of multi-formed 12 gauge steel with tapped (10-32UNF) and square holes per Industry Standards
- Bonding and grounding (earthing) studs on all doors, sides and tops
- Leveler is made of 12mm threaded steel, adjusting nut and composite foot
- Keylocking handle made of composite material – common key on all doors

FINISH

Pretreated steel coated with RAL 9005 black textured low-gloss polyester powder paint. Other finishes available; contact Hoffman Customer Service for details. Rack angles and top/bottom brackets are painted flat, low-gloss, smooth RAL 9005 black with RU markings front and rear per Industry Standards.

LOAD RATING

Static (cabinet positioned in place and loaded with equipment) per UL 2416 test: 3000 lbs.

DYNAMIC RATING*

Caster: Light Duty - 900 lbs.; Heavy Duty - 3000 lbs.

* Dynamic caster load rating is based on short distances over flat solid surfaces on even floors at walking speeds. Great care must be given when moving any cabinet at any load; contact nVent HOFFMAN for additional guidelines.

Dynamic Ship Rating: 1000 lbs. per ASTM D4169-14 (Distribution Testing) and ASTM D4728 (Vibration Testing).
BULLETIN: DPS1

PROLINE S1 SERVER PACKAGE

APPLICATION

ProLine S1 Server Packages are a data center-ready solution designed to be configured in a row or stand-alone configuration. The cabinets feature airflow management and provide easy cable access/mounting provisions.
FEATURES
- Top panel has four-corner brush strip cable entry
- Internal airflow management
- Cable management (750mm and 800mm wide models)
- Plinth base
- Ability to externally mount cable management (i.e. ladder rack)
- Caster/leveler kit pre-installed
- PDU mounting brackets included (qty 2 pair)
- Joining kits included with "middle" configurations

PROLINE S1 CASTER AND LEVELER KITS

Standard Product

| Catalog Number	Load Rating	Finish	Fits
PS1CLKLD	900 lbs.	Black with clear zinc plated fasteners	All cabinets
PS1CLKHD	3000 lbs.	Black with clear zinc plated fasteners	All cabinets

Caster/Leveler kits are available in either a light duty (900 lbs.) or heavy duty (3000 lbs.) load rating. The kits are comprised of a set of four caster/levelers and all assembly hardware. Each caster is easily assembled to the cabinet and swivels to allow ease of cabinet movement. The casters are made of black composite material. The levelers are easily adjusted down and secured with furnished locking nuts. These Caster/Leveler kits are designed for moving a cabinet within a facility to its final location.

NOTE: Casters are for moving the cabinet short distances within the building interior space. They are not intended for transportation or shipping. When transporting the cabinet by carrier, the shipping pallet must extend to the frame of the cabinet and at no time should the caster support any load during the shipping process. Casters must have smooth, flat, hard surfaces to move upon. Floors with cracks, seams, debris, inclines, and declines are to be avoided. Great care must always be observed when moving cabinets to avoid tipping. Casters are not designed for exterior surfaces, asphalt, gravel, and other soft surfaces. Contact nVent HOFFMAN for additional details.
PS1CLKLD   PS1CLKHD

CASTER KIT

A set of four casters (two locking, two non-locking) that mount directly to the bottom of a ProLine frame, 0-mm or 100-mm Solid Base or a Console. **(Do not use on plinth bases.)** Casters elevate the enclosure 110 mm (4.33) when installed. Caster frames are plated steel with ball-bearing pivots. Caster wheels are made of a black polyamide material. Kit includes M12 mounting hardware.

Casters Maximum Load: 1000 lb. (453 kg)

NOTE: Casters are designed for moving the cabinet short distances within the building interior space. They are not intended for transportation or shipping. When transporting the cabinet by carrier, the shipping pallet must extend to the frame of the cabinet and at no time should the caster support any load during the shipping process. PROLINE S1 VERTICAL CABLE MANAGERS

Vertical Cable Managers are sold individually and attach to the cabinet rack angles. They provide a vertical open column for cables. Arrowhead fingers every 1.75 in. match rack unit spaces and allow for managing and protecting cables and ensuring proper bend radius. These cable managers are made of steel, painted RAL 9005 black, low-gloss polyester powder textured. The engineered composite arrowhead supporting fingers are black.

FRAME JOINING KITS

Permits joining two enclosure frames while maintaining an environmental seal.

Side-to-Side Joining Kit consists of six frame nuts and screws, as well as gasket material to maintain a dust-tight and water-tight seal between ganged frames. Can be used if rack angles are not in the front or rearmost positions or if a subpanel is not in the rearmost position.

Alternate Joining Kit consists of three standoffs, six frame nuts and screws, as well as gasket material. This kit facilitates frame joining when rack angles are in the front or rearmost position, or if a subpanel is in the rearmost position.

Front-to-Back Joining Kit permits front-to-back joining of two single-bay enclosures. This kit does not fit 1200-mm or 1600-mm wide frames.

MOBILE BASE

Mobile Bases fit 600- and 800-mm wide frames. They extend beyond the front and rear of 600-mm cabinets to provide enhanced stability. Provides front extension only on 800-mm cabinets. Constructed of steel finished in RAL 9005 textured black polyester powder paint. The base fastens to the underside of the frame and provides integral mounting of furnished casters. The front and rear top surfaces of the base are trimmed with black rubber mats 3-mm thick.
Casters and mounting hardware are furnished.
Four non-locking casters provide a maximum load-bearing capacity of 1000 lb. (453.6 kg).
Exercise care when using casters to move the cabinet. Avoid tipping and damage to the cabinet and its contents by slowly moving the cabinet on its casters across smooth, flat flooring. Avoid:
· large cracks
· floor displacement
· seams
· gravel
· any other obstruction
Never use casters while transporting a cabinet by truck on roadways.
Contact nVent HOFFMAN if further information is needed.

FRAME TIE-DOWN BRACKET

The ProLine Frame VELCRO® Tie-Down Bracket provides an easy means to secure and bundle cables using any of the frame's rectangular holes. The bracket can be positioned parallel or perpendicular to the frame and needs no tools to install—just push into any hole and twist to fasten. Proper bend radius is easily maintained with the flexible Velcro tie-down, plus it provides easy initial and future cable installations. Bracket is made of a durable plastic. Both tie-down and bracket are black.

VELCRO is a trademark of VELCRO Industries B.V.

FRONT-TO-BACK D-RING BRACKET

Manages cable routed between front and back of cabinet. Can be used with optional Universal D-Ring Brackets or Transition Brackets for increased flexibility in managing cables. Mounts to ProLine frame. Secures cable with D-Rings that snap open and closed for secure routing with easy access for wiring changes. D-Rings can be oriented for vertical, front-to-back or side-to-side cable management. RAL 9005 black polyester paint finish. Includes D-Rings and mounting hardware.
