## Description

The flexible current sensor can take alternating current measurements from any installation with a full rejection of DC components, a very low consumption of power, with no saturation problems, a low temperature dependence and a very good linearity. The flexible sensor has been designed according to the Rogowsky coil principle, measuring alternating current irrespective of the position of the conductor. The current conductor must not be near the coil cable joint, since the degree of error increases in this area. Its centred location also reduces the impact of external magnetic fields. Thanks to the flexibility of the current sensor, one or more conductors can be surrounded, regardless of their shape, to perform current measurement actions.

## Application

These flexible current sensors have been specially designed for the MYeBOX-150 and MYeBOX-1500 portable power analysers.

## KIT 4-FLEX-R120

Flexible Clamps
Code: M81643.

## Specifications

## Environmental characteristics

| Protection class | IP $20 /$ IP 54 with terminal cover (optional) (for models $\varnothing 85,100,116 \mathrm{~mm}$ ) |
| :--- | :--- |
| Relative humidity (without condensation) | $15 \ldots 85 \%$ |
| Storage temperature | $-40 \ldots 85^{\circ} \mathrm{C}$ |
| Operating temperature | $-20 \ldots 85^{\circ} \mathrm{C}$ |

## Mechanical characteristics

| Envelope | sensor material: Self-extinguishing UNE $2103190^{\circ} \mathrm{C} /$ Material couplings: PA V-0 |
| :--- | :--- |
| Weight (kg) | 1,7 |

## Specific technical characteristics of current sensors

| External fields | $\pm 2 \%$ |
| :--- | :--- |
| Maximum temperature coefficient | $\pm 0,05 \%$ |
| Accuracy | $\pm 1 \%$ |
| Linearity | $(10 \ldots 100 \%) \pm 0,2 \%$ |
| Position sensitivity (cable connection) | $\pm 3 \%$ |
| Output voltage | $76 \mu \mathrm{~V} / \mathrm{A} \mathrm{a} 50 \mathrm{~Hz}$ |

Current measurement circuit

Nominal frequency
$50 \mathrm{~Hz} / 60 \mathrm{~Hz}$.

## Standards

| Electrical safety, Installation category | 1000V CAT III / 600V CAT IV |
| :--- | :--- |
| Electrical safety, Contamination level/class | Pollution resistance 2 |
| Standards | Dielectric strength IEC $61010-2-32(5,4 \mathrm{kV} \mathrm{50} \mathrm{Hz)}$ |

## Electrical safety

## Insulation

Double-insulated electric shock protection class II (IEC 61010-1)

## KIT 4-FLEX-R120

Flexible Clamps
Code: M81643.

FLEX-R
Flexible sensors for MYeBOX analysers
