

The Engage Cable is a continuous length of 12AWG cable with pre-installed connectors for Enphase Microinverters to plug into. The cable is handled like standard outdoor-rated electrical wire, allowing it to be cut, spliced and extended as needed.

The Engage Accessories complement the Engage Cable and give it the ability to adapt to any installation.

FAST [- Quick installation
- Large branch capacity

FLEXIBLE [- Simple design
- No additional cables

SAFE [- No high voltage DC
- Reduced fire risk
